

HOW-TO GUIDE • MOBILE

Claim PNIC to MetaMask (mobile)

Last updated: 2026-09-18

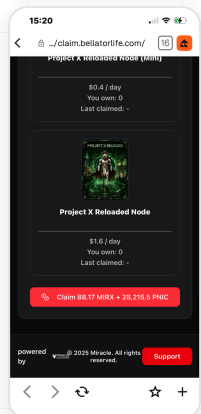

This guide shows how to withdraw (claim) your PNIC and MIRX rewards in the Reward Center and move them into your MetaMask/Miracle wallet — step by step, on mobile.

This guide shows the steps on mobile. Menus, button names and layout may vary slightly between iPhone (iOS) and Android, and between app versions — the principles are still the same.

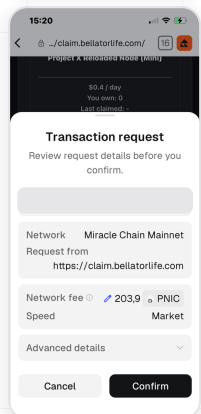

1 Open the Reward Center

Click "**Reward Center**", or go directly to claim.bellatorlife.com. The first time you visit the page, select "**Connect wallet**" and connect your MetaMask/Miracle wallet.

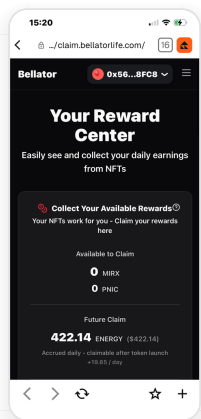

2 Scroll down to your NFTs

Once you're on your claim page, scroll all the way down to the claim button. You need a little **PNIC (gas fee)** in your wallet to complete the claim.

3 Review and confirm

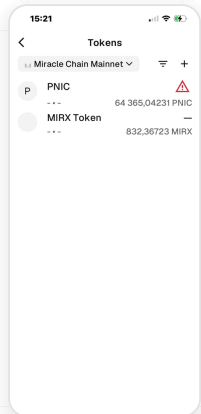

Check at the top of the box which account the rewards will be paid into. The **Network fee** varies depending on how many Nodes you own and current network activity. Then tap "**Confirm**" to complete the claim.

4 Done — 0 left to claim

You'll now see that PNIC and MIRX have been claimed (0 left). The amounts have been moved to your wallet (MetaMask/Miracle Chain).

Note! Add MIRX manually on Miracle Chain if the token doesn't show up immediately in your MetaMask.

5 Check in MetaMask

Open MetaMask via **Token** → **"Popular networks"**, select **"Custom network"** and **Miracle Chain**. There you'll now see that PNIC and MIRX have arrived, after tapping "Confirm" in step 3.

If something doesn't work

- Check that you have PNIC in your wallet for the gas fee (the transaction fee) — if not, ask your sponsor/contact person to send you some PNIC so you can claim the first time.
- Sometimes there isn't enough PNIC in the claim pool. In that case you may get an error message. Try again a little later or another day.

Related guides

- **Add MIRX to MetaMask** — if MIRX doesn't show automatically.
- **Stake PNIC** and **Stake MIRX** — put your rewards to work.
